

MEDICAL PHYSICS: CLINICAL/RESEARCH, MS

The Clinical/Research option is designed for students who matriculate into our PhD program and follow the Clinical Pathway. These students obtain a MS degree after they complete required coursework and pass the PhD qualifier examination. Students may alternatively exit our program with a MS degree and no PhD if they complete required coursework and either submit a MS thesis or pass the qualifier exam. This degree is Commission on Accreditation of Medical Physics Education Programs (CAMPEP) accredited.
