FUNDING

GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information is available from the Graduate School.

Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

All Endocrinology - Reproductive Physiology (ERP) students are guaranteed funding provided they make satisfactory progress. Funding support includes a competitive stipend, full tuition remission, and generous health benefits.

Students are typically funded through research assistant appointments. Eligible students may also be funded through individual fellowships or training grants. While teaching is not an ERP requirement, some students become teaching assistants.

ERP students are encouraged to apply for external fellowships, travel awards and scholarships, with the support of their advisors. An ideal time to apply for external support is within six months of the preliminary exam. The process of applying for competitive awards is an invaluable learning experience and an accomplishment in itself, regardless of whether the application is successful.
