

CANCER BIOLOGY, PHD

FUNDING

FUNDING

GRADUATE SCHOOL RESOURCES

The Bursar's Office provides information about tuition and fees associated with being a graduate student. Resources to help you afford graduate study might include assistantships, fellowships, traineeships, and financial aid. Further funding information is available from the Graduate School.

Be sure to check with your program for individual policies and restrictions related to funding.

PROGRAM RESOURCES

The program is committed to ensuring continuing financial support for all cancer biology PhD students in good standing. Financial support includes a competitive stipend and tuition remission. All graduate students are also eligible for comprehensive health insurance. PhD students are supported from a variety of different sources including research assistantships from faculty research grants, fellowships, and NIH training grants. There is no teaching requirement for cancer biology students; however, many opportunities exist on campus for those who wish to gain teaching experience.

Students are admitted into the Cancer Biology Program as a Research Assistant (RA) unless they have received a fellowship or training grant. Find more information here (<https://cancerbiotraininggrant.mcardle.wisc.edu/>).
