

HEALTH SERVICES RESEARCH IN PHARMACY, PHD

ADMISSIONS

ADMISSIONS

Please consult the table below for key information about this degree program's admissions requirements. The program may have more detailed admissions requirements, which can be found below the table or on the program's website.

Graduate admissions is a two-step process between academic programs and the Graduate School. **Applicants must meet the minimum requirements (<https://grad.wisc.edu/apply/requirements/>) of the Graduate School as well as the program(s).** Once you have researched the graduate program(s) you are interested in, apply online (<https://grad.wisc.edu/apply/>).

Requirements	Detail
Fall Deadline	December 7
Spring Deadline	This program does not admit in the spring.
Summer Deadline	This program does not admit in the summer.
GRE (Graduate Record Examinations)	Not required.
English Proficiency Test	Refer to the Graduate School: Minimum Requirements for Admission policy: https://policy.wisc.edu/library/UW-1241 (https://policy.wisc.edu/library/UW-1241/).
Other Test(s) (e.g., GMAT, MCAT)	n/a
Letters of Recommendation Required	3

Academic backgrounds in public health, sociology, industrial/systems engineering, or economics are well suited for graduate study in Health Services Research in Pharmacy. A professional degree in pharmacy is helpful, but not required. Those with pharmacy-type work experience or a degree in a related field are invited to inquire about the compatibility of their background for admissions purposes. If you seek to apply your knowledge and skills to pharmacy or medication-related research at the highest levels, contact us. You can earn the PhD in Health Services Research in Pharmacy with emphasis in any of the diverse areas of concentration within our program.

Please see admissions (<https://pharmacy.wisc.edu/programs/sas/admissions/>) on the program website for a link to the application and a description of the required supplementary materials. Applications are only considered at the **yearly January deadline**, for matriculation in the following fall semester. **Applications are not reviewed at any other time during the year.** If one does not hold a research-based master's degree at the time of application, but is interested in the PhD degree, that PhD intent should be in the application (and if admitted, such students

would typically pursue an MS in Health Services Research in Pharmacy on the way to the PhD).
