

# AGRICULTURAL BUSINESS MANAGEMENT, BS

## FOUR-YEAR PLAN

### FOUR-YEAR PLAN

This sample four-year plan is a tool to assist students and their advisors.

Students should use their DARS report, the degree planner, Guide requirements, and the course search & enroll tools to make their own four-year plan based on their placement scores, credit for transferred courses and approved examinations, and individual interests.

Note: Students must complete MATH 213, MATH 217, or MATH 221 or ECON 205. Students may satisfy the required level of math proficiency through the math placement exam. On the other hand, this level of competence may require as many as three or four semesters of coursework in mathematics, depending on where students begin their course sequence.

Students must complete at least 120 total credits to be eligible for graduation.

### SAMPLE AGRICULTURAL BUSINESS MANAGEMENT FOUR-YEAR PLAN

#### First Year

Fall	Credits Spring	Credits
