

ENVIRONMENTAL SOIL SCIENCE, CERTIFICATE

WISCONSIN EXPERIENCE

WISCONSIN EXPERIENCE

Students in the Certificate in Environmental Soil Science are involved in an array of opportunities across campus. Students are highly encouraged to complement their coursework with out-of-classroom experiences such as research (<https://soilenvsci.wisc.edu/research-and-extension/research/>), volunteering (<https://morgridge.wisc.edu/>), internships (<https://cals.wisc.edu/academics/undergraduate-students/outside-the-classroom/internships/>), and study abroad (<https://www.studyabroad.wisc.edu/>).

Students in the certificate can participate in the UW-Madison Soil Judging Team.
