

DISABILITY RIGHTS AND SERVICES, CERTIFICATE

The Department of Rehabilitation Psychology and Special Education's primary mission is to improve the lives of individuals with disabilities. The Disability Rights and Services Certificate equips undergraduate students with the knowledge, skills, and attitudes needed to support this mission. Upon completion, students will be prepared to advocate for the equity and inclusion of individuals with disabilities in their academic fields and future careers.

This certificate is particularly popular among pre-health students who seek to gain valuable knowledge and skills related to supporting individuals with disabilities. It also serves as an excellent option for students considering graduate studies in education, offering exposure to special education coursework.

STUDY ABROAD OPPORTUNITY

The Department of Rehabilitation Psychology and Special Education offers a short-term, faculty-led, summer study abroad course, Disability Rights and Access in Australia (<https://studyabroad.wisc.edu/program/?programId=330353>), which can be counted as an elective for the certificate.
