

# SCHOOL OF HUMAN ECOLOGY HONORS

**The School of Human Ecology Honors program no longer admits new students as of Summer 2026 and will be discontinued as of Fall 2027.** If you have any questions, please contact the school.

The School of Human Ecology Honors Program provides an opportunity for students to pursue coursework in greater depth than is possible in regular courses. The honors program is a school-wide program open to students regardless of major. Honors program members are eligible to enroll in courses offered for honors-only credit, to participate in campus wide activities for honors program students, and to apply for special research-funding opportunities. Upon completion of the honors program requirements and degree requirements, the student will receive an honors degree from the School of Human Ecology. The transcript for a Human Ecology honors student who does not complete all honors degree requirements will have the honors designation next to honors courses completed.
