RESOURCES AND SCHOLARSHIPS

The Department of Mathematics offers scholarships, awards, and prizes (<https://math.wisc.edu/undergraduate/awards/>) to students declared in the Mathematics major. Award applications are open during the spring semester so that award recipients may be selected before the end of spring semester and applied to fall enrollment.

Awards vary in scope and criteria. Some awards are open to students who exhibit financial need, while others are granted to students based on academic merit. Other awards are related to undergraduate research. Awards may be open to specific student populations such as early-career majors or those interested in a career as a teacher.

Students declared in the Mathematics major are encouraged to apply for any scholarships for which they meet the qualifications.
