

SPANISH, BS

Did you know that by 2050 the United States could have more Spanish speakers than any other country (<http://qz.com/441174/by-2050-united-states-will-have-more-spanish-speakers-than-any-other-country/>)?

Spanish continues to gain ground as a widely spoken, national and international language, making the ability to communicate effectively in both written and spoken Spanish an invaluable intellectual, social, cultural, and professional resource. These just a few of the many career paths for which proficiency in spoken and written Spanish can be a valuable asset:

- Bilingual and second language education
- Medical, legal, and business professions
- Journalism
- Travel industry
- Translation
- Interpretation
- Nongovernmental/nonprofit work
